

# Gardening Tools

## Wheelie bin

We decided to put a large wheelie bin can in our company garden because everywhere was dirty.

## Watering can

My mom was very angry with him because my little brother was playing with my grandfather's flower watering can.

## Garden hose

We circled the garden hose around the house and watered the whole garden, I think we will have to take a longer hose here.

## Land

The lands of our country are the most fertile lands on this earth.

## Animals

Today, we bought 2 chickens, a duck and a dog in the small but cozy garden of our new home.

## Hoe

All of our workers are hoe the field, and all of them will have a lunch break.

## Glove

You should wear your gloves while cleaning the thorns roses, or the thorns will sink in your hands.
